## **1. INTRODUCTION**

This report summarizes findings from the Arkansas Prevention Needs Assessment Survey (APNA), a survey of 6<sup>th</sup>, 8<sup>th</sup>, 10<sup>th</sup> and 12<sup>th</sup> grade school students, conducted in the fall of 2020. This survey was available free of charge to all Arkansas public school districts that chose to participate. The survey was designed to assess adolescent substance use and related behaviors, and risk and protective factors that predict these behaviors. In this report, the results are presented for each grade along with the overall results for the State. Table 1.1 provides information on the total number of students and the number of students in the region. Table 1.2 provides information on the number and percent of students at each grade. Table 1.3 provides information on the number and percent of students by sex. Table 1.4 provides information on the number and percent of students by ethnic origin.

The APNA Survey was first administered in the fall of 2002 and has been administered in the fall of each school year since then. Because trends over time are very important to prevention planning, readers are encouraged to review the results from the previous surveys. By comparing the results of the previous surveys, changes in ATOD (alcohol, tobacco and other drugs) use, rates of ASB (antisocial behavior), and levels of risk and protective factors can be determined for a specific grade. It is important to note that the results in this report are for students who were not sampled in the even grades (6, 8, 10, and 12) during the previous year's survey. Those students are now in grades 7, 9, 11 or are out of school. Together, the results of the current and past APNA surveys provide a complete picture of ATOD use, antisocial behavior, risk, and protection for students in Arkansas.

## **1.1 The Risk and Protective Factor Model of Prevention**

Risk and protective factor-focused prevention is based on a simple premise: To prevent a problem from happening, we need to identify the factors that increase the risk of that problem developing and then find ways to reduce the risks. Just as medical researchers have found risk factors for heart attacks such as diets high in fats, lack of exercise, and smoking, a team of researchers, the Social Development Research Group (SDRG), at the University of Washington, have defined a set of risk factors for drug abuse. The research team also found that some children exposed to multiple risk factors manage to avoid behavior problems later even though they were exposed to the same risks as children who exhibited behavior problems. Based on research, they identified protective factors and processes that work together to buffer children from the effects of high risk exposure and lead to the development of healthy behaviors.

Risk factors include characteristics of school, community, and family environments, as well as characteristics of students and their peer groups that are known to predict increased likelihood of drug use, delinquency, and violent behaviors among youth<sup>1</sup>.

(Methods Note Regarding Long-Term Trend Data:)

Reports for the 2020 Arkansas Prevention Needs Assessment Survey were posted during the first week of March. During the third week of March, a code error resulting to non-standard procedures being used for calculating scores on the risk and protective factor questions was discovered. On further examination, it was discovered that this error had also been inadvertently used in 2017, 2018, 2019 reports. The variation in these procedures related to how missing data (i.e., instances where the student did not respond to a question) were counted. The effect was lowered calculated scores for some risk and protective factor prevalence estimates.

In this report, the computational methods used for the risk and protective factor score calculations have been adjusted to match standard score calculation procedures. In addition, to produce the most accurate long-term trend data possible, the 2017, 2018 and 2019 scores have been recalculated utilizing standard procedures.

Data for substance use and all other variables, other than the risk and protective factor scale, were unaffected by the non-standard procedures mentioned above, as the Risk and Protective Factor scores are calculated separately from the rest of the statistics in the report.

An impact assessment will be performed to further examine the scope of the change and will be made available once completed. Preliminary review suggests that overall impact on existing trends and prevention efforts will be minimal. The impact assessment will seek to verify the initial review.

## **1.2 The COVID-19 Pandemic Impact on the 2020 APNA Survey**

In fall 2020, schools and districts across Arkansas and the United States struggled with COVID-19 impacts and the re-opening of schools, remote learning, and hybrid learning environments for students in grades K-12. In Arkansas, compared with previous years, fewer districts were able to participate in the 2020 APNA. For those who did participate, administrators had less control over the survey environment, resulting in more incomplete and fewer surveys (50% fewer statewide) than in past years. Despite these challenges, APNA was successfully administered and the resulting data can inform efforts to continue work in building safe learning environments for Arkansas students.

As you read and make use of the data in this report, please keep in mind a few impacts of these unique learning and testing environments driven by the pandemic:

1. Comparisons between 2020 and previous years should be assessed with caution; for counties with low levels of responses, the results can be interpreted as trends that can be verified with future data.
2. The specific participating schools in each county were often different between 2019 and 2020; comparisons between annual data should consider this differential when seeking comparisons.
3. For most counties, the data remain reliable and representative of general substance use and other behaviors of the students in your county.

Also, to provide data on the impact of the pandemic, the 2020 APNA includes a battery of survey items to gather data on the students' perspectives on: safety for returning to school during the pandemic; preference for online vs learning in school; remote access to school services; relationships and homelife during the pandemic; social distancing practices; and feelings of depression during the pandemic. This snapshot will assist Arkansas' educators in understanding how the pandemic has affected the learning environment and the students who access it.

---

## 2. TOOLS FOR ASSESSMENT AND PLANNING

Protective factors exert a positive influence or buffer against the negative influence of risk, thus reducing the likelihood that adolescents will engage in problem behaviors. Protective factors, identified through research reviewed by the Social Development Research Group, include social bonding to family, school, community and peers; and healthy beliefs and clear standards for behavior.

Research on risk and protective factors has important implications for prevention efforts. The premise of this approach is that in order to promote positive youth development and prevent problem behaviors, it is necessary to address those factors that predict the problem. By measuring risk and protective factors in a population, specific risk factors that are elevated and widespread can be identified and targeted by preventive interventions that also promote related protective factors. For example, if academic failure is identified as an elevated risk factor in a community, then mentoring and tutoring interventions can be provided that will improve academic performance, and also increase opportunities and rewards for classroom participation.

Risk and protective factor-focused drug abuse prevention is based on the work of J. David Hawkins, Ph.D., Richard F. Catalano, Ph.D.; and a team of researchers at the University of Washington in Seattle. Beginning in the early 1980's, the group researched adolescent problem behaviors and identified risk factors for adolescent drug abuse and delinquency. The chart below shows the links between the 16 risk factors and the five problem behaviors. The check marks have been placed in the chart to indicate where at least two well designed, published research studies have shown a link between the risk factor and the problem behavior.

YOUTH AT RISK	PROBLEM BEHAVIORS				
	Substance Abuse	Delinquency	Teen Pregnancy	School Drop-Out	Violence
<b>Community</b>					
Availability of Drugs and Firearms	✓				✓
Community Laws and Norms Favorable Toward Drug Use	✓				
Transitions and Mobility	✓	✓		✓	
Low Neighborhood Attachment and Community Disorganization	✓	✓			✓
Extreme Economic and Social Deprivation	✓	✓	✓	✓	✓
<b>Family</b>					
Family History of High Risk Behavior	✓	✓	✓	✓	
Family Management Problems	✓	✓	✓	✓	✓
Family Conflict	✓	✓	✓	✓	✓
Favorable Parental Attitudes and Involvement in the Problem Behavior	✓	✓			✓
<b>School</b>					
Early and Persistent Antisocial Behavior	✓	✓	✓	✓	✓
Academic Failure in Elementary School	✓	✓	✓	✓	✓
Lack of Commitment to School	✓	✓	✓	✓	
<b>Individual/Peer</b>					
Alienation and Rebelliousness	✓	✓		✓	
Friends Who Engage in a Problem Behavior	✓	✓	✓	✓	✓
Favorable Attitudes Toward the Problem Behavior	✓	✓	✓	✓	
Early Initiation of the Problem Behavior	✓	✓	✓	✓	✓

### **3. SCHOOL IMPROVEMENT USING SURVEY DATA**

Data from the Arkansas Prevention Needs Assessment Survey can be used to help school and community planners assess current conditions and prioritize areas of greatest need.

Each risk and protective factor can be linked to specific types of interventions that have been shown to be effective in either reducing the risk(s) and enhancing the protection(s). The steps outlined below will help your school and community make key decisions regarding allocation of resources, how and when to address specific needs, and which strategies are most effective and known to produce results.

#### **3.1 What are the numbers telling you?**

Review the charts and data tables presented in this report. Using the table in section 3.3, note your findings as you discuss the following questions

- Which 3 to 5 risk factors appear to be higher than you would want?
- Which 3 to 5 protective factors appear to be lower than you would want?
- Which levels of 30 day drug use are increasing and/or unacceptably high?
  - Which substances are your students using the most?
  - At which grades do you see unacceptable usage levels?
- Which levels of antisocial behaviors are increasing and/or unacceptably high?
  - Which behaviors are your students exhibiting the most?
  - At which grades do you see unacceptable behavior levels?

#### **3.2 How to decide if a rate is "unacceptable."**

- Look across the charts to determine which items stand out as either much higher or much lower than the others.
- Compare your data to statewide data and national data. Differences of 5% or more between the local and other data should be carefully reviewed.
- Determine the standards and values held in your area. For example: Is it acceptable in your community for 75% of high school students to drink alcohol regularly even when the statewide percentage is 90?

#### **3.3 Use these data for planning:**

- Substance use and antisocial behavior data - raise awareness about the problems and promote dialogue.
- Risk and protective factor data - identify exactly where the community needs to take action.
- Promising approaches - talk with resources listed on the last page of this report for ideas about programs that have been proven effective in addressing the risk factors that are high in your area, and in improving the protective factors that are low.

Measure	Unacceptable Rate #1	Unacceptable Rate #2	Unacceptable Rate #3	Unacceptable Rate #4
30 Day Drug Use				
Antisocial Behavior				
Risk Factors				
Protective Factors				

**How do I decide which intervention(s) to employ?**

- Strategies should be selected based on the risk factors that are high in your community and the protective factors that are low.
- Strategies should be age appropriate and employed prior to the onset of the problem behavior.
- Strategies chosen should address more than a single risk and protective factor.
- No single strategy offers the solution.

**How do I know whether or not the intervention was effective?**

- Participation in the annual administration of the survey provides trend data necessary for determining the effectiveness of the implemented intervention(s) and also provides data for determining any new efforts that are needed.

## 4. HOW TO READ THE CHARTS AND TABLES

1. Student responses for risk and protective factors, substance use and antisocial behavior questions are displayed by grade on the following pages.
2. The factors are grouped into 4 domains: community, family, school, and peer-individual.
3. The bars represent the percent of students in the grade who reported elevated risk or protection, substance use, antisocial behaviors or school safety concerns.
4. Scanning across these charts, you can easily determine which factors are most (or least) prevalent, thus identifying which are the most important for your community to address.
5. Bars will be complemented by a small dash. The dash shows the comparison from the state and provides additional information for you in determining the relative importance of each risk or protective factor.
6. A dashed line on each risk and protective factor chart represents the percentage of youth at risk or with protection for the seven state sample upon which the cut-points were developed. The seven states included in the norm group were Colorado, Illinois, Kansas, Maine, Oregon, Utah and Washington. This gives you a comparison to a national sample.
7. Brief definitions of the risk and protective factors can be found following the graphs.
8. The tables provide more detailed information and are broken down by grade level. The combined category consists of all the grade levels represented in this report combined together (ie. if the report is based on 10<sup>th</sup> and 12<sup>th</sup> graders then the combined category will be all the 10<sup>th</sup> and 12<sup>th</sup> graders combined). For the tables on substance use, some substances also have a comparison to the Monitoring the Future (MTF) data. Monitoring the Future is an annual federally funded national survey of substance use across the country for students in grade 8, 10 and 12. For some substances and for some years or some grades, there is no corresponding MTF data. More information can be found at <https://www.drugabuse.gov/drug-topics/trends-statistics/monitoring-future>
9. The following abbreviations are sometimes used in the tables and charts due to space constraints:

**ATOD** stands for Alcohol, Tobacco and Other Drug Use.

**ASB** stands for Antisocial Behaviors.

**PSI** stands for Prosocial Involvement.

**MTF** stands for Monitoring the Future.

### Substances and Prevalence Periods Measured by APNA

Arkansas youth report on substance use of 19 substances. This report carries multi-year trend data, comparing this year's survey findings to up to four previous years of data gathered using similar survey questions. A few substances have been added throughout the years to reflect current usage trends; most recently added were synthetic marijuana and bath salts (2012), e-cigarettes (2014) and steroids (2020).

The report also carries data on lifetime vs 30-day substance use. Lifetime use (Ever Used), when a student reports having used a substance at least once, is typically viewed as a measure of youth experimentation of ATOD. In contrast, past 30-day use, (ie, when students report that they have used a substance at least once in the past 30 days), is viewed as the best measure of ongoing use of ATOD. For alcohol use, binge drinking is measured using a two-week prevalence period and e-cigarettes use is reported by frequency and amount used.

Table 4.1: Risk and Protective Factor Scale Definition

Community Domain Risk Factors	
<b>Transitions and Mobility</b>	Research has shown that transitions from school to school may be accompanied by significant increases in rates of drug use, school dropout and antisocial behavior.
<b>Perceived Availability of Drugs</b>	The availability of cigarettes, alcohol, marijuana, and other illegal drugs has been related to the use of these substances by adolescents.
<b>Perceived Availability of Handguns</b>	The availability of handguns has also been related to the use of these substances by adolescents.
Family Domain Risk Factors	
<b>Poor Family Management</b>	Parents' use of inconsistent and/or unusually harsh or severe punishment with their children places them at higher risk for substance use and other problem behaviors. Also, parents' failure to provide clear expectations and to monitor their children's behavior makes it more likely that they will engage in drug abuse whether or not there are family drug problems.
<b>Family History of Antisocial Behavior</b>	When children are raised in a family with a history of problem behaviors (e.g., violence or ATOD use), the children are more likely to engage in these behaviors.
<b>Parental Attitudes Favorable Toward Drug Use</b>	In families where parents use illegal drugs, are heavy users of alcohol, or are tolerant of children's use, children are more likely to become drug abusers during adolescence. The risk is further increased if parents involve children in their own drug (or alcohol) using behavior, for example, asking the child to light the parent's cigarette or get the parent a beer from the refrigerator.
<b>Parental Attitudes Favorable Toward Antisocial Behavior</b>	In families where parents are tolerant of their child's antisocial behavior (i.e. fighting, stealing, defacing property, etc.), children are more likely to become drug abusers during adolescence.
School Domain Risk Factors	
<b>Academic Failure</b>	Beginning in the late elementary grades (grades 4-6) academic failure increases the risk of both drug abuse and delinquency. It appears that the experience of failure itself, for whatever reasons, increases the risk of problem behaviors.
<b>Low Commitment to School</b>	Surveys of high school seniors have shown that the use of hallucinogens, cocaine, heroin, stimulants, and sedatives or non-medically prescribed tranquilizers is significantly lower among students who expect to attend college than among those who do not. Factors such as liking school, spending time on homework, and perceiving the coursework as relevant are also negatively related to drug use.

*continued on the next column*

Risk and Protective Factor Scale Definition (continued)

School Domain Protective Factors	
<b>Opportunities for Prosocial Involvement</b>	When young people are given more opportunities to participate meaningfully in important activities at school, they are less likely to engage in drug use and other problem behaviors.
<b>Rewards for Prosocial Involvement</b>	When young people are recognized and rewarded for their contributions at school, they are less likely to be involved in substance use and other problem behaviors.
Individual/Peer Risk Factors	
<b>Early Initiation of Drug Use</b>	Early onset of drug use predicts misuse of drugs. The earlier the onset of any drug use, the greater the involvement in other drug use and the greater frequency of use. Onset of drug use prior to the age of 15 is a consistent predictor of drug abuse, and a later age of onset of drug use has been shown to predict lower drug involvement and a greater probability of discontinuation of use.
<b>Early Initiation of Antisocial Behavior</b>	Early onset of antisocial behaviors such as being suspended from school, arrests, carrying handguns, fighting, etc. makes young people more likely to be involved in substance abuse.
<b>Attitudes Favorable Toward Drug Use</b>	During the elementary school years, most children express anti-drug, anti-crime, and pro-social attitudes and have difficulty imagining why people use drugs. However, in middle school, as more youth are exposed to others who use drugs, their attitudes often shift toward greater acceptance of these behaviors. Youth who express positive attitudes toward drug use are more likely to engage in a variety of problem behaviors, including drug use.
<b>Attitudes Favorable Toward Antisocial Behavior</b>	During the elementary school years, most children express anti-drug, anti-crime, and pro-social attitudes and have difficulty imagining why people engage in antisocial behaviors. However, in middle school, as more youth are exposed to others who engage in antisocial behavior, their attitudes often shift toward greater acceptance of these behaviors. Youth who express positive attitudes toward antisocial behavior are more likely to engage in a variety of problem behaviors, including antisocial behavior.

*continued on the next column*

#### Risk and Protective Factor Scale Definition (continued)

<b>Low Perceived Risk of Drug Use</b>	Young people who do not perceive drug use to be risky are far more likely to engage in drug use.
<b>Rewards for Antisocial Involvement</b>	Young people who receive rewards for their antisocial behavior are at higher risk for engaging further in antisocial behavior and substance use.
<b>Individual/Peer Protective Factors</b>	
<b>Religiosity</b>	Young people who regularly attend religious services are less likely to engage in problem behaviors.

## 5. CHARTS AND TABLES

Alcohol, Tobacco and Other Drug Use - Grade 6  
Region 10

A series of new vaping questions and steroids were added to the survey in 2020. Data comparison is not available for prior years.

Figure 5.1: Alcohol, Tobacco and Other Drug Use - Grade 6

Alcohol, Tobacco and Other Drug Use - Grade 8

## 6. AGE OF INITIATION

The Age of Initiation Profile looks specifically at student responses to the questions "How old were you when you first ...". The questions cover both first incidences of drug use (marijuana, cigarettes, alcohol, and regular use of alcohol) and first incidences of antisocial behaviors (suspension, arrest, carrying a gun, attacking someone and belonging to a gang). Possible responses to these questions range from age 10 to age 17 or the student can respond to the question with "Never". The average age figures are based only on those students who responded to the question with an answer other than "Never".

## 7. STUDENT TOBACCO USE, EXPERIENCES AND PREVENTION SERVICES

Tobacco use is the leading preventable cause of death in the United States.

Arkansas youth typically have higher rates of tobacco use, including both cigarettes and smokeless tobacco, than the national average. Higher tobacco prevalence rates are common across the Southeast United States. This is due to a variety of cultural and economic factors that have traditionally supported greater tobacco use. The following table shows the results of the lifetime and past 30 day use of cigarettes, chewing tobacco and vaping nicotine.

Table 7.1: Cigarettes - Lifetime Use

## 8. STUDENT ELECTRONIC VAPOR PRODUCT USE AND EXPERIENCES

Surveillance on the growing popularity of the use and effects of products linked to vaping is an important area of study for educators across the country. Electronic cigarettes and vaping products (such as vaporizers, vape pens, hookah pens, electronic pipes) began emerging throughout US communities in 2006-2007<sup>2</sup> and appeared in schools several years later.

In 2014, Arkansas introduced its first series of questions on lifetime use of e-cigarettes, e-cigars, and e-hookahs on the APNA questionnaire. At that time, students reported age of initiation at aged 14.5 years and e-cigarette use was reported by 18.7% of all students surveyed (Grades 8, 10, 12), with more than a third (37.3%) of 12<sup>th</sup> graders reporting use in 2014. By 2019, age of initiation of e-cigarette had declined to age 13.8 years but, of all students, 24.7% reported using e-cigarettes and, among 12<sup>th</sup> graders, almost half (41.5%) said they used e-cigarettes, e-cigars or e-hookahs.

For the 2020 APNA survey, the question, "used e-cigarettes, e-cigars or e-hookahs (vaping)" was modified to "used a vaping product like e-cigarettes, e-cigars, or e-hookahs" to capture the wider variety of products now available. In addition, new items have been added. Some vaping-related questions ask students about types of substances vaped: nicotine, marijuana, and flavoring; other questions ask about ease of getting substances and devices for vaping and reasons for vaping.

As shown for other questions on frequency of use, results from these questions are reported by grade level, total student responses, and total student responses compared with state levels of student use. With these results in hand, Arkansas' educators and administrators will be prepared to address what appears to be a rising tide of vaping among its students.

---

## **9. STUDENT COVID-19 FEELINGS AND EXPERIENCES**

When the SARS-CoV-2 virus, known commonly as COVID-19, disturbed life, school, and work in the United States during early spring 2020, predictions about the course this virus would take, and its resulting impact, varied widely. This public health crisis and immediate health effects at local levels drove administrative decisions to close schools and offer learning approaches through remote and virtual platforms.

With the emergence of the virus and the uncertainty of how long the virus would be a threat, students and teachers have found themselves thrown into unique, untested, and unchartered waters. Your students have responded to some additional questions related to the COVID-19 pandemic to give you an honest look at how they perceive their learning experience to be affected by COVID-19, how well they think they are equipped to access lessons and learn in the new environment, and how safe they are from risk of infection.

Table 9.1: How safe would/do you feel returning to school at this time?

				Very Safe	Safe	Not Safe	Very Not Safe
6	region	21.9	49.7	21.1	7.2		
	state	24.4	51.7	16.9	7.0

## 10. DRUG-FREE COMMUNITIES SUPPORT PROGRAM CORE MEASURES

The Drug-Free Communities Support Program, administered by the Center for Substance Abuse Prevention, requests specific data which is typically referred to as the Core Measures of which there are currently four (30-Day Use, Perception of Risk, Parental Disapproval and Friends Disapproval). The drug categories measured are tobacco, alcohol, marijuana and prescription drugs. The first set of four tables found on the following page examines these measures broken down by grade level. The second set of four tables examines these measures broken down by gender. The meaning of the *pct* column will vary with each table and is described below. The *n* column represents the number of students who responded to the question (i.e. sample size).

**Past 30-Day Use** The question "*On how many occasions (if any) have you ... in the past 30 days?*" is used to measure this statistic by reporting the percentage of students who report any use in the past 30 days.

**Perception of Risk** The question "*How much do you think people risk harming themselves (physically or in other ways) if they ...?*" is used to measure this statistic by reporting the percentage of students who report that using the drug is a "Moderate Risk" or a "Great Risk" to their health.

**Perception of Parental Disapproval** The question "*How wrong do your parents feel it would be for you to ...?*" is used to measure this statistic by reporting the percentage of students who report that parents would feel it is "Wrong" or "Very Wrong" to use tobacco, alcohol and marijuana.

**Perception of Friends Disapproval** The question "*How wrong do your friends feel it would be for you to ...?*" is used to measure this statistic by reporting the percentage of students who report that friends would feel it is "Wrong" or "Very Wrong" to use tobacco, alcohol and marijuana.

Table 10.1: Core Measure by Grade for Past 30 Day Use

Grade	Cigarettes		Alcohol		Marijuana		Presc Drugs	
	pct	n	pct	n	pct	n	pct	n
Grade 6	0.8	399	3.3	397	1.0	394	1.5	391

# 11. PREVENTION RESOURCES

## 11.1 Regional Prevention Provider Contact List

### Region 1 -- Benton, Carroll, Madison, Washington

Community Clinic -- (479) 751-7417 Fax: (479) 751-4898  
Address: 614 E. Emma Avenue, Suite M426  
Springdale, AR 72764

Laurie Reh -- [laurie.reh@communityclinicnwa.org](mailto:laurie.reh@communityclinicnwa.org)  
Codi McCuistion -- [codi.mccuistion@communityclinicnwa.org](mailto:codi.mccuistion@communityclinicnwa.org)

### Region 2 -- Baxter, Boone, Marion, Newton, Searcy

North Arkansas Partnership for Health Education  
NARMC/NAPHE  
Address: 620 N. Main, Suite 4311  
Harrison, AR 72601  
Cell: 870-688-8352 Fax: (870) 391-3507  
Chrissie Larchez -- [christine.larchez@northark.edu](mailto:christine.larchez@northark.edu)

### Region 3 -- Cleburne, Fulton, Independence, Izard, Jackson, Sharp, Stone, Van Buren, White, Woodruff

Crowley's Ridge Development Council -- (870) 819-6885  
Physical Address: 2013 East Main Street, Mountain View, AR 72560

Margaret Morrison -- [mmorrison@crdcnea.com](mailto:mmorrison@crdcnea.com) Cell: (870) 819-6970  
Barbara Hacker -- [bhacker@crdcnea.com](mailto:bhacker@crdcnea.com)

Addresss: 2485 Harrison Street, Suite 5, Batesville, AR 72501  
Shawn Vonwiller -- [svonwiller@crdcnea.com](mailto:svonwiller@crdcnea.com) Cell: (870) 819-7349

### Region 4 -- Clay, Craighead, Greene, Lawrence, Mississippi, Poinsett, Randolph

Crowley's Ridge Development Council -- (870) 933-0033  
Address: 2401 Fox Meadows Lane  
Jonesboro, AR 72404  
Dr. Lisa Perry -- [lperry@crdcnea.com](mailto:lperry@crdcnea.com)  
Deonna Vincent -- [dvincent@crdcnea.com](mailto:dvincent@crdcnea.com)  
Shamal Carter -- [scarter@crdcnea.com](mailto:scarter@crdcnea.com)

### Region 5 -- Crawford, Franklin, Logan, Polk, Scott, Sebastian

Harbor House -- (479) 652-5072 (Tabitha) or (479) 259-5549 (Katie)  
Shipping Address: 3900 Armour Ave.  
Fort Smith, AR 72904  
Physical Address: 101 North 10th Street, Suite C  
Fort Smith, AR 72901  
Tabitha Fondren -- [tfondren@recoverhhi.org](mailto:tfondren@recoverhhi.org)  
Katie Priest -- [kpriest@recoverhhi.org](mailto:kpriest@recoverhhi.org)

**Region 6 -- Conway, Faulkner, Johnson, Perry, Pope, Yell**

Community Service Inc. -- (501) 354-4589 Fax: (501) 354-5410  
Physical Address: 100 South Cherokee, Morrilton, AR 72110  
Mailing Address: PO BOX 679, Morrilton, AR 72110  
Shannon Cook -- [scook@csiyouth.com](mailto:scook@csiyouth.com)

Address: 1505 South Oswego Avenue, Russellville, AR 72802  
Office: (479) 967-3370 Fax: (479) 967-2775  
Amy Mellick -- [amellick@csiyouth.com](mailto:amellick@csiyouth.com)

**Region 7 -- Crittenden, Cross, Lee, Monroe, Phillips, St. Francis**

Crowley's Ridge Development Council  
Address: 593 Highway 243  
Marianna, AR 72360  
Kendon Gray -- [kendon@crdcnea.com](mailto:kendon@crdcnea.com) Cell: (870) 819-7756

**Region 8 -- Clark, Garland, Hot Springs, Montgomery, Pike**

Ouachita Children, Youth & Family Services -- (501) 282-6211  
Address: 1401 Malvern Avenue, Suite 22  
Hot Springs, AR 71901  
Anthony Tidwell -- [atidwell@occnet.org](mailto:atidwell@occnet.org) Cell: (501) 915-4050

**Region 9 -- Lonoke, Prairie, Pulaski, Saline**

Family Service Agency -- (501) 372-4242 ext. 752 (Hayse) or 753 (Genine)  
Fax: (501) 372-4758  
Address: 628 West Broadway Street, Suite 201  
North Little Rock, AR 72114  
Hayse Miller -- [hmiller@fsainc.org](mailto:hmiller@fsainc.org)  
Genine Perez -- [gperez@fsainc.org](mailto:gperez@fsainc.org)

**Region 10 -- Hempstead, Howard, Lafayette, Little River, Miller, Sevier**

Harbor House -- (903) 733-7564  
Address: 4425 Jefferson Ave., Suite 102  
Texarkana, AR 71854  
Cynthia Miner -- [cminer@recoveryhhi.org](mailto:cminer@recoveryhhi.org)

**Region 11 -- Calhoun, Columbia, Dallas, Nevada, Ouachita, Union**

**Arkansas Prevention Needs Assessment Student Survey**

## **12. 2020 APNA SURVEY**

1. Thank you for agreeing to participate in this survey. The purpose of this survey is to learn how students in our schools feel about their community, family, peers, and school. The survey also asks about health behaviors.
  2. **This survey is completely voluntary and anonymous. Do NOT put your name on the questionnaire.**
  3. This is not a test, so there are no right or wrong answers. We would like you to work quickly so you can finish.
  4. All of the questions should be answered by completely filling in one of the answer spaces. If you do not find an answer that fits exactly, use the one that comes closest. If any question does not apply to you, or you are not sure what it means, just leave it blank. You can skip any question that you do not wish to answer.
  5. For questions that have the following answers: **NO! no yes YES!**  
Mark (the BIG) **YES!** if you think the statement is **DEFINITELY TRUE** for you.  
Mark (the little) **yes** if you think the statement is **MOSTLY TRUE** for you.  
Mark (the little) **no** if you think the statement is **MOSTLY NOT TRUE** for you.  
Mark (the BIG) **NO!** if you think the statement is **DEFINITELY NOT TRUE** for you.

**Example:** Chocolate is the best ice cream flavor.

- NO!**  **yes**  **no**

In the example above, that student marked "yes" because he or she thinks the statement is mostly true.

6. Please mark **only one answer for each question, unless otherwise directed, by completely filling in the oval with a #2 pencil.**

In the example above, that student marked "yes" because he or she thinks the statement is mostly true.

- |                                                                                                                                                |                                                                     |                                   |

17 or  
10 or you

- a. smoked marijuana?
  - b. smoked a cigarette, even just a puff?
  - c. had more than a sip or two of beer, wine, or hard liquor (for example, vodka, whiskey, or gin)?
  - d. began drinking alcoholic beverages regularly, that is, at least once or twice month?
  - e. used Pegaramide (peg, peggy)?
  - f. got suspended from school?
  - g. got arrested?
  - h. carried a handgun?
  - i. used a vaping product like e-cigarettes, e-cigars, or e-hokahs?
  - j. used prescription drugs not prescribed to you?

of school have you missed because you skipped or "cut"?"

- None       1       2       3

4-5       6-10       11 or more

25. How wrong do you think it is for someone your age to:

- The next questions ask about your feelings and experiences in other parts of your life.**

23. What are the chances you would be seen as cool if you:

- a. smoked cigarettes?

b. worked hard at school?

c. began drinking alcoholic beverage regularly, that is, at least once or twice a month?

d. defended someone who was being bullied?

e. smoked marijuana?

f. carried a handgun?

g. used a vaping product like e-cigarettes, e-cigars, or e-hookahs?

h. bullied someone or cyberbullied someone?

j. use synthetic marijuana (K2, spice) or bath salts?

k. use LSD, cocaine, amphetamines or another illegal drug?

l. use a vaping product like e-cigarettes, e-cigars, or e-hookahs?

**26. How many times in the past year (12 months) have you:**

Never	1 or 2 times	3 to 5 times	6 to 9 times	10+ times
<input type="radio"/>				

**30. How often do you attend religious services or activities?**

Never	Rarely	1-2 times a month	About once a week or more
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

a. been suspended from school?

b. carried a handgun?

c. sold illegal drugs?

d. stolen or tried to steal a motor vehicle such as a car or motorcycle?

e. participated in clubs, organizations or activities at school?

f. been arrested?

g. attacked someone with the idea of seriously hurting them?

h. been drunk or high at school?

i. taken a handgun to school?

j. used a vaping product like e-cigarettes, e-cigars, or e-hookahs?

**27. How much do you think people risk harming themselves (physically or in other ways) if they:**

Can't save drug unfamiliar	Great risk	Moderate risk	Slight risk	No risk
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

a. smoke one or more packs of cigarettes per day?

b. try marijuana once or twice?

c. smoke marijuana once or twice a week?

d. take one or two drinks of an alcoholic beverage (beer, wine, liquor) nearly every day?

e. have five or more drinks of an alcoholic beverage once or twice a weekend?

f. use prescription drugs that are not prescribed to them?

g. use non-prescription drugs to get high?

h. use a vaping product like e-cigarettes, e-cigars and e-hookahs?

i. vape an e-liquid with nicotine occasionally?

j. vape an e-liquid with nicotine regularly?

**28. Have you ever belonged to a gang?**

No

No, but would like to

Yes, in the past

Yes, belong now

Yes, but would like to get out

**29. If you have ever belonged to a gang, did that gang have a name?**

No

Yes

I have never belonged to a gang

**30. How often do you attend religious services or activities?**

Never	Rarely	1-2 times a month	About once a week or more
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

**31. Have you ever used smokeless tobacco (chew, snuff, plug, dipping tobacco, or chewing tobacco)?**

Never	Once or twice	Once in a while but not regularly	Regularly in the past	Regularly now
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

**32. How often have you used smokeless tobacco during the past 30 days?**

Not at all	Once or twice	Once or twice per week	Three to five times per week	About once a day	More than once a day	Regularly now
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

**33. Have you ever smoked cigarettes?**

Never	Once or twice	Once in a while but not regularly	Regularly in the past	Regularly now
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

**34. How frequently have you smoked cigarettes during the past 30 days?**

Not at all	Less than one cigarette per day	One to five cigarettes per day	About one-half pack per day	About one pack per day	About one and one-half packs per day	Two packs or more per day
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

**35. Which statement best describes rules about smoking inside your home or your family cars?**

Smoking is not allowed anywhere inside the home or cars	Smoking is allowed in some places and at some times or in some cars	Smoking is allowed anywhere inside the home or cars	There are no rules about smoking inside the home or cars	I don't know
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

**36. During this school year, were you taught in any of your classes about the dangers of tobacco use?**

Never	Rarely	Sometimes	Often	Almost always
<input type="radio"/>

- 37. Think back over the last two weeks. How many times have you had five or more alcoholic drinks in a row?**

None

Once

Twice

3-5 times

6-9 times

10 or more times

**38. During the past 30 days, how many times did you ride a car or other vehicle driven by someone who had been drinking alcohol or using drugs to get high?**

0 times

1 time

2 or 3 times

4 or 5 times

6 or more times

**39. During the past 30 days, how many times did you drive a car or other vehicle when you had been drinking alcohol or using drugs to get high?**

I did not drive a car in the past 30 days

0 times

1 time

2 or 3 times

4 or 5 times

6 or more times

- 40. If you drank alcohol (not just a sip or taste) in the past year, where did you usually drink it? Select the one best answer.**

  - I did not drink alcohol in the past year
  - at my home
  - at someone else's home
  - at an open area like a park, beach, field, back road, woods, or a street corner
  - at a sporting event or concert
  - at a restaurant, bar, or a nightclub
  - at an empty building or a construction site
  - at a hotel/motel
  - in a car
  - at school

The following questions ask about substances used in the past 30-Days.

On how many occasions (if any) have you:

42. drunk one or more drinks of an alcoholic beverage (beer, wine, or hard liquor) during the **past 30 days**?
  43. used marijuana (weed, pot) or hashish (hash, hash oil) during the **past 30 days**?
  44. used psychedelics (LSD, PCP, mescaline, Peyote, shrooms, synthetics, etc.) during the **past 30 days**?
  45. used cocaine or crack during the **past 30 days**?
  46. snuffed glue, breathed the contents of an aerosol spray can, or inhaled other gases or sprays, in order to during the **past 30 days**?
  47. used Pegaramide (peg, peggy, etc.) during the **past 30 days**?
  48. used synthetic marijuana (K2, spice) during the **past 30 days**?
  49. used methamphetamine (meth, speed, crank, crystal meth) during the **past 30 days**?
  50. used other chemical products (bath salts, plant food, etc.) during the **past 30 days**?
  51. used heroin or other opiates during the **past 30 days**?
  52. used ecstasy ("X", "E", Molly, or MDMA) during the **past 30 days**?
  53. used steroids (testosterone, HGH, etc.) to enhance athletic performance during the **past 30 days**?
  54. taken prescription drugs (Valium, Xanax, Ritalin, Adderall, Oxycontin, Tramadol, sleeping pills, etc.) not prescribed to you during the **past 30 days**?
  55. taken non-prescription medicines such as diet pills (for example, Dietac, Dexatrim, or Prolamine), stay awake (for example No-Doz, Vivarin, or Wake), or cough or cold medicines (robos, DXM, etc.) to get high during **30 days**?
  56. been drunk or very high from drinking alcoholic beverages during the **past 30 days**?
  57. drunk flavored alcoholic beverages, sometimes called "alcopops" (like Mike's Hard Lemonade, Smirnoff Baccardi Breezers, etc.) during the **past 30 days**?

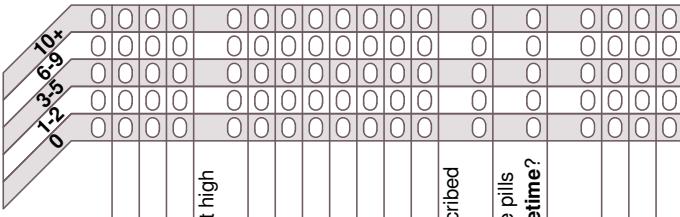

Some questions on this survey are about vaping, juuling and using electronic vapor products. These products include brands such as Juul, pod mods, blu, NJOY, Vuse, Mark Ten, Logic, Vapin Plus, eGo, Suorin DROP, Halo, etc. Juuling, vaping, or, electronic vapor products may also include marijuana, nicotine, or just flavoring vape pens and rigs, e-cigarettes, e-cigars, e-pipes, vape pipes, vaping pens, e-hookahs, mods, and hookah pens.

58. vaped NICOTINE during the past 30 days?                    
59. vaped MARIJUANA during the past 30 days?

**The following questions ask about substances ever used in your lifetime.**

**OCCASIONS**

- On how many occasions (if any) have you:
61. drunk alcoholic beverages (beer, wine, or hard liquor) in your **lifetime** – more than just a few sips?
  62. used marijuana (weed, pot) or hashish (hash, hash oil) in your **lifetime**?
  63. used psychedelics (LSD, PCP, mescaline, peyote, shrooms, synthetics, etc.) in your **lifetime**?
  64. used cocaine or crack in your **lifetime**?
  65. sniffed glue, breathed the contents of an aerosol spray can, or inhaled other gasses or sprays, in order to get high in your **lifetime**?
  66. used Pegaramide (peg, peggy, etc.) in your **lifetime**?
  67. used synthetic marijuana (K2, spice) in your **lifetime**?
  68. used methamphetamine (meth, speed, crank, crystal meth) in your **lifetime**?
  69. used other chemical products (bath salts, plant food, etc.) in your **lifetime**?
  70. used heroin or other opiates in your **lifetime**?
  71. used ecstasy ("X", "E", Molly, or MDMA) in your **lifetime**?
  72. used steroids (testosterone, HGH, etc.) to enhance athletic performance in your **lifetime**?
  73. taken prescription drugs (Valium, Xanax, Ritalin, Adderall, Oxycontin, Tramadol, sleeping pills, etc.) not prescribed to you in your **lifetime**?
  74. taken non-prescription medicines such as diet pills (for example, Dietac, Dexatrim, or Prolamine), stay awake pills (for example No-Doz, Vivarin, or Wake), or cough or cold medicines (robos, DXM, etc.) to get high in your **lifetime**?
  75. drunk flavored alcoholic beverages, sometimes called "alcopops" (like Mike's Hard Lemonade, Smirnoff Ice, Bacardi Breezers, etc.) in your **lifetime**?
  76. vaping NICOTINE in your **lifetime**?
  77. vaping MARIJUANA in your **lifetime**?
  78. vaping just FLAVORING in your **lifetime**?

81. What have been the most important reasons for you to vape? (Mark all that apply.)
- I have not vaped
  - To help me quit regular cigarettes
  - Because regular cigarette use is not permitted
  - To experiment - to see what it's like
  - To relax or relieve tension
  - To feel good or get high
  - Because it looks cool
  - To have a good time with my friends
  - Because of boredom, nothing else to do
  - Because it tastes good
  - Because I am "hooked" - I have to have it
82. During the last month, about how many marijuana cigarettes, or their equivalent, did you smoke a day, on the average? (If you shared them with other people, count only the amount YOU smoked.)
- None
  - Less than 1 a day
  - 1 a day
  - 2-3 a day
  - 4-6 a day
  - 7-10 a day
  - 11 or more a day
83. If you used marijuana (weed, pot) (not just a puff or drag) in the past year, how did you get it? (Mark all that apply.)
- I did not use marijuana in the past year
  - I bought it myself
  - I got it from someone at school
  - I got it from someone with a medical marijuana card
  - I got it from my brother or sister
  - I got it from another relative
  - Other
84. If you used a vaping product like e-cigarettes, e-cigars, or e-hookahs (not just a puff or drag) in the past year, how did you get them? (Mark all that apply.)
- I did not use e-cigarettes, e-cigars, or e-hookahs in the past year
  - I bought them in a store such as a convenience store, supermarket, discount store, or gas station
  - I got them on the Internet
  - I got them at a store that sells electronic cigarettes, such as a "vape shop"
  - I got them from a family member
  - I got them from a friend
  - A stranger got them for me
  - I took them from a store or shop
  - I got them some other way

| 7 or more times | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |

100. Have you changed schools (including changing from elementary to middle and middle to high school) in the past year?

111. How wrong do your parents feel it would be for YOU to:

No

Yes

101. How many times have you changed schools since kindergarten (including changing from elementary to middle and middle to high school)?

Never

1 or 2 times

3 or 4 times

5 or 6 times

7 or more times

**102. Has anyone in your family ever had a severe alcohol or drug problem?**

Yes

No

	YES!	Yes	No	NO!
103. The rules in my family are clear.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
104. People in my family have serious arguments about the same things, and often insult or yell at each other.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
105. When I am not at home, one of my parents knows where I am and who I am with.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
106. My family has clear rules about alcohol and drug use.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
107. If you skipped school would you be caught by your parents?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
108. My parents ask if I've gotten my homework done.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
109. Would your parents know if you did not come home on time?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

110. Have any of your brothers or sisters ever:

During the COVID-19 Outbreak: A Pandemic Paradox

- a. drunk beer, wine, or hard liquor (for example, vodka, whiskey, or gin)?
- b. smoked marijuana?
- c. smoked cigarettes?
- d. taken a handgun to school?
- e. been suspended or expelled from school?
- f. used a vaping product like e-cigarettes, e-cigars, or e-hookahs?
- g. used prescription drugs not prescribed for him/her?

<p><b>These questions ask about your feelings and experiences during the COVID-19 or Coronavirus Pandemic.</b></p>	<p><b>113. How safe would/do you feel returning to school at this time?</b></p> <p><input type="radio"/> Very Safe      <input type="radio"/> Safe      <input type="radio"/> Not safe      <input type="radio"/> Very not safe</p>	<p><b>114. Do you prefer online classes or learning in school?</b></p> <p><input type="radio"/> Online classes      <input type="radio"/> At a school      <input type="radio"/> No preference      <input type="radio"/> I don't know</p>	<p><b>115. Do you have enough access to school counseling services (ex. counselors who can help with mental health, feelings, or problems students may be experiencing)?</b></p> <p><input type="radio"/> Yes      <input type="radio"/> No      <input type="radio"/> I don't know</p>	<p><b>116. How has your relationship with the family you live with</b></p>

## 13. FREQUENCY DISTRIBUTION TABLES

This section contains frequency distribution tables for all questions found on the 2020 Arkansas Prevention Needs Assessment Survey (APNA) Survey. The tables appear in the same order as the questions on the survey. The tables include breakdowns by grade level as well as combined percentages. The *N of Valid* row is a frequency count of the number of valid responses to each question for each grade and overall. The *N of Miss* row is a frequency count of the number of invalid(marked more than one response) or missing (i.e. did not respond) responses to each question for each grade and overall.

For the questions that allowed more than one response (i.e. race, live with, etc.) each response becomes a separate table. If a student did not mark the response, that was counted as a NO response, if they did mark the response, that was counted as a YES response, and if none of the responses were selected each was set to missing.

Table 13.9: Are you:

	Grade 6		Grade 8		Grade 10		Grade 12		Combined	
	Region %	State %								
Male	49.5	50.0	49.8	49.2	44.2	48.9	54.5	48.5	49.1	49.3
